

RTO Car Talk – November 3, 2000 Edition

Per the PPC Executive Committee's request, here is a comparison of the March 2000 RTO principles with the 10/23/00 RTO West proposal materials filed with FERC and available on the RTO West website (www.rto west.org). The comparison is 10 pages long.

Also attached is the public power straw proposal that was presented to the Regional Review Group on 8/31, with Coe Hutchison's update info as of 9/21, and PPC staff's update on how the RTO West filing materials match up. This document is five pages long.
